

# Insulseal Protective Coatings

## LEED BD+C v4 and v4.1 Credit Contributions

### IEQ Credits: Low-emitting Materials (v4.0 or v4.1)

---

**CDPH v1.2-2017 compliant:** Insulseal has been tested in accordance with California Department of Public Health Standard Method (CDPH Std. Mtd.) v1.2-2017. A testing report is available that demonstrates compliance under both school classroom and private office exposure scenarios.

TVOC range is 0.5 mg/m<sup>3</sup> or less, as specified in the CDPH Standard Method v1.2 2017. This product falls under the Paints & Coatings Category under the low-emitting materials credit.

Applies to all colors: gray, charcoal, and white.
